

Stability, Flexibility, Service

These three words best describe the Builders Exchange, Inc. Health Plan.

This innovative approach to group health insurance is **ONLY available to members of Builders Exchange, Inc.! Groups from 1—100 welcome!**

STABILITY:

This plan, introduced in 2016, has offered average base rate increases of under 3% per year. Thorough medical underwriting and financial oversight have created a stable rate environment for our participants. If you are tired of double digit rate increases year-after-year you need to consider this plan.

FLEXIBILITY:

We can offer multiple plan designs to employers, composite (not-age-banded) pricing and additional services like Health Reimbursement Arrangement (HRA) and Health Savings Account (HSA) services. Our plan also provides the plan document which is required by the Department of Labor.

SERVICE:

Tired of an agent that you can't count on? Tired of hearing, "We can't do that"? Builders Exchange Benefits, the sole broker for this plan, prides itself on impeccable service before and after the sale. Our staff provides you with the highest level of service along with products from only the top carriers in the state.
